

Fun, Profitable... & Inexpensive!

Treasure hunting is *fun*! And, it can be *profitable*. "A hobby that can pay for itself" is explained in layman's language. Healthy outdoor exercise and the sheer excitement and pleasure of finding treasure are but two of its many advantages.

Veteran metal detector manufacturer and treasure hunter Charles Garrett draws from his lifetime of experience to cite numerous instances where different kinds of valuable objects have been found with metal detectors and to suggest where more treasure is waiting to be found...today!

Treasure Hunting for Fun and Profit explains how truly simple it is to find coins, jewelry, money caches, gold nuggets and countless other items of value with a modern electronic metal detector.
