

JOHN RATZENBERGER PROFILES GARRETT METAL DETECTORS FOR “MADE IN AMERICA” TV SERIES

Garrett Metal Detectors to be Featured on Discovery Network’s Travel Channel

GARLAND, Texas - January 12, 2006 - Garrett Metal Detectors was recently profiled by John Ratzenberger for his hit TV series, *Made in America*, which airs on the Discovery network’s Travel Channel. Mr. Ratzenberger chose to feature Garrett Metal Detectors based on the Company’s economic impact in the community, its unique nature of business and its contribution to U.S. culture as an American-made product. Garrett Metal Detectors manufactures ground search, walk-through and hand-held metal detection products and provides training for security applications worldwide.

“It’s an honor that Mr. Ratzenberger considered Garrett Metal Detectors for his TV series, *Made in America*,” noted Vaughan Garrett, VP and Director of Marketing Communications for Garrett Metal Detectors. “My father began building his first metal detectors in our garage in Garland, Texas. And though we’ve grown into an international company over the past 40 years with worldwide partners, we’re proud to keep all our engineering and business practices at home in the U.S. It’s exciting to look back at the growth we’ve enjoyed over the past 40 years and know that we can support the local economy and provide jobs for local businesses, vendors and area residents.”

Mr. Ratzenberger produces *Made in America* to honor the men and women who work with their hands and skillfully make the products that are the backbone of the American economy. Each year the program visits roughly 40 manufacturing facilities throughout the country. Additional information about companies profiled by John Ratzenberger on *Made in America* can be found by logging on to travel.discovery.com.

“Mr. Ratzenberger and his crew filmed the show on location at our corporate headquarters and manufacturing plant in Garland,” added Garrett. “Mr. Ratzenberger interviewed my father, Charles Garrett, during the shoot and listened to him reminisce about his exciting trips around the world in search of lost and hidden treasure. Mr. Ratzenberger also learned more about our walk-through and hand-held metal detectors that are utilized in airports and public venues such as the Olympic Games as well as tried his hand at treasure hunting with Garrett’s new ACE metal detector.”

The segment is scheduled to premiere on March 14, 2006, on the Travel Channel at 8 PM CST.

About John Ratzenberger

Master improvisational actor John Ratzenberger gained international fame in the hit television series, “*Cheers*”. During more than three decades of movie making and theatre, John has enjoyed success as a screenwriter, director, producer and multi Emmy-nominated actor. He is also an accomplished entrepreneur and philanthropist. John serves as host and executive producer of *Made in America* and is the only actor to appear in every Pixar film.

About Made in America

Made in America premiered in 2004 and is now in its third season. The program showcases three companies each week, airing Tuesdays at 9:00 PM on the Discovery network’s Travel Channel.
