Find: Michelle recalls the day she discovered her gold hammered coin:

"At a recent charity dig in Monks Kirby, Rugby, UK with my amazing *AT Pro International* detector (which I call Robyn), I discovered this extremely rare Richard III Half Angel gold hammered coin. Apparently it is so amazing that I didn't even realize what I discovered. There are only three known to exist. I found it on a ploughed field about 17 inches down. The ground was like a clay substance, quite thick. I had 'her' on Pro Mode and the Target ID rang up as a 65, although a little scratchy. Yes, I was also made to do my first hammy dance."

Congratulations, Michelle, on your first hammered coin find!

Michelle's rare hammered gold coin professionally restored back to its full glory.

Garrett's Code of Detecting Ethics

Charles Garrett always urged his fellow searchers to conduct themselves as responsible treasure hunters and to leave their hunt areas in better condition than they found them. Here are just a few of his keys to good conduct in the field:

- Never trespass or hunt on private property without permission.
- National and state parks/monuments, etc. are absolutely off-limits.
- Always fill in every hole that you dig.
- Do not leave litter or other discarded junk items lying around.
- Always carry out all rubbish and dug targets with you when you leave a search area.
- Use reasonable caution in digging toward any target, particularly in areas where you are uncertain of the ground conditions.
- Keep informed on and obey all local and national legislation relating to the discovery and reporting of found treasures.

Finder: Andy S., Rotorua, New Zealand

Using: *AT Pro*

Find: "I was hunting with two good mates at a lake that has produced many great targets in the form of old coins and jewelry in the past," Andy said. Hearing a faint high tone among almost solid iron, he used his sand scoop to pry up what he thought was a piece of rusty old pipe. He found instead that he had discovered an Enfield Pattern 1853 rifle-musket. "I have been hunting for a relic like this for over five years and to date this is absolutely my favorite find," said Andy.

We have never found 'real' treasure... a penny, a nickel and lots of trash. Every item we find has a story, though! It might be an old Indian hair tie, an ancient nail, a prehistoric fishing hook... we always use our imagination! Charles Garrett Memorial Hunt II

Save the dates: March 24-25, 2018

Hunt spaces will be limited:
sign-up now!

In honor of our late founder, Garrett is planning another big detecting rally—the Charles Garrett Memorial Hunt II, to be held during the weekend of March 24-25, 2018.

Once again, the event will be held near the small, historic town of Jefferson, Texas—once a thriving riverport in the 1800s. The Garrett hunt will feature both seeded hunts and native hunting in an area where history dating to the Civil War could potentially be dug.

For paid entrants, basic open hunting of historic areas will actually begin at noon on Friday, March 23. The Basic Hunt package includes: a free hunt T-shirt; participation in up to four prize hunts; park admission; and tent camping at Diamond Don's RV Park, the site of the Garrett hunt. (*RV sites are additional cost; check directly with Diamond Don's for rates.*)

The two premium hunts, the Silver Hunt and the Relic Hunt, each require an additional hunt fee. There are six total hunts, each of which offer participants the chance to win metal detectors, pinpointers, and Garrett accessories as prizes. Special prize tokens hidden throughout the campground property will provide additional chances to win prizes.

Hunt packages for the Charles Garrett Memorial Hunt start at \$60, but even non-hunters can enjoy the weekend for a \$5 park entry fee. Children ages 12
