

THE GARRETT SEARCHER™

Fall 2018

Garrett Metal Detectors®

Charles Garrett Memorial Hunt III

It's **BACK!** The Charles Garrett Memorial Hunt III will be held again at the 200 acre property of Diamond Don's RV Park in the East Texas town of Jefferson, March 29 to 31, 2019, in

honor of our company's founder.

Located along the Big Cypress Bayou, Jefferson was an important commercial riverboat town around the period of the Civil War, so historic finds have been discovered on the property. Last year's event saw more than 500 attendees, and the crowd this year will be held to roughly the same size.

In addition to free-range detecting and historic dump searching, paid contestants can take part in several basic hunts—including a free Kids Hunt on Saturday. Each hunt package includes free tent camping in the RV park, and the chance to win metal detectors, *Pro-Pointers*, and many other prizes. A limited number of RV sites are available. Contact Diamond Don's for rates.

Two additional premium hunts—the Relic Hunt and the Silver Hunt—are available for those who are interested in more than just the basic hunts.

For more details on the 2019 Charles Garrett Memorial Hunt, please visit this web page:

www.garrett.com/hunt

Space is limited, so we encourage you to sign up before the end of the year to avoid missing out on all the fun and prizes.

Hunters lined up for the silver hunt at the 2018 Charles Garrett Memorial Hunt II in Jefferson, TX.

Garrett's Code of Detecting Ethics

Charles Garrett always urged his fellow searchers to conduct themselves as responsible treasure hunters and to leave their hunt areas in better condition than they found them. Here are just a few of his keys to good conduct in the field:

- Never trespass or hunt on private property without permission.
- National and state parks/monuments, etc. are absolutely off-limits.
- Always fill in every hole that you dig.
- Do not leave litter or other discarded junk items lying around.
- Always carry out all rubbish and dug targets with you when you leave a search area.
- Use reasonable caution in digging toward any target, particularly in areas where you are uncertain of the ground conditions.
- Keep informed on and obey all local and national legislation relating to the discovery and reporting of found treasures.

Finder: Jeremy K., Washington
Using: *ACE 150*

PARK GOLD

Finder: Greg D., Canada
Using: *AT Max International*

Find: Greg began his day searching an 1800s park where he had previously found old silver, buffalo nickels, Indian Head pennies, and large cents. Greg states, "This day started a little slow with a little clad and then a couple of 1800s relics. I've been digging everything to really try and clean the park out. I had a really iffy 59 reading and a faint scratch signal in my headphones. Little did I know that I was about to dig my best find to date." When he reached into the hole, out popped a tiny gold coin stamped with the date 1852 with an Indian's head. On the reverse side was stamped "California Gold". Greg recalls, "I jumped for joy! I instantly popped online to look it up. It turned out that jewelers created these gold coins as souvenirs in the 1800s. I am still on cloud 9!"

FEATURED FIND

Finder: Chip K., Florida
